solpulse.trade | agentic-signer.com
x.com/mattinfra

Full-stack engineer building production trading infrastructure, AI-agent applications, mobile wallet integrations, and cross-platform SDKs. Built and launched SolPulse, a live trading platform with 800+ users, 26 reviews, a 4.3-star rating, Apple App Store release, and Solana dApp Store listing. Built Agentic, a deployed agent-wallet application at agentic-signer.com with web, CLI, desktop, Apple App Store, Google Play, and Solana dApp Store releases, reaching 1000+ users, 35 reviews, and a 4.2-star rating in under 1 month. Created cross-engine wallet SDKs across Unreal Engine, Cocos Creator, Capacitor, Godot, Unity, and iOS-native flows, plus TxShield, an open pre-sign transaction-safety SDK, with upstream PRs merged into public SDK repositories.

EXPERIENCE

Independent Full-Stack Engineer / Open-Source SDK Builder 2025 - Present

- Built and launched SolPulse, a production trading platform across web, Android, and iOS, with App Store, Google Play, and Solana dApp Store releases, 800+ users, 26 reviews, and a 4.3-star rating.
- Built and deployed Agentic at agentic-signer.com, an agent-wallet app with web, CLI, desktop, Apple App Store, Google Play, and Solana dApp Store surfaces, reaching 1000+ users in under 1 month with 35 reviews and a 4.2-star rating.
- Designed automated trading infrastructure with multi-mode scanning, DCA, limit orders, smart TP/SL exits, real-time filters, multi-DEX routing, priority fee controls, and execution logs.
- Built wallet-safe signing flows using Solana Mobile Wallet Adapter, Wallet Standard, Seed Vault, and mobile deeplink patterns so private keys remain inside user wallets/devices.
- Created wallet SDKs and demos for Unreal Engine, Cocos Creator, Capacitor, Godot, Unity, and iOS-native wallet adapter flows.
- Contributed upstream fixes to public Solana SDK repositories, including merged PRs in Godot Solana SDK and Solana Unity SDK.

Analytics Specialist, Socket Mobile, Inc.

Apr 2020 - Jul 2023

Fremont, CA

- Delivered actionable web analytics reports, performance dashboards, and strategic recommendations for marketing and leadership decision-making.
- Managed analytics workflows from data collection through QA, insight generation, reporting, and stakeholder presentation.
- Partnered with leadership and marketing teams to solve operational bottlenecks, improve reporting accuracy, and support business scaling.
- Planned and analyzed A/B and multivariate tests across channels and customer segments.

SELECTED PROJECTS

SolPulse - Trading Platform

React, Node, Solana

- Built solo trading platform with live website, App Store, Google Play, and Solana dApp Store releases.
- Implemented execution engine with Sniper, DCA, limit orders, smart exits, multi-DEX swap routing, priority fee controls, and real-time strategy logs.
- Built intelligence and risk systems covering token scoring, dev identity checks, smart money tracking, rug scanning, whale scanning, max daily loss, and per-trade risk caps.

Agentic - AI Agent Wallet Application

Web, CLI, Desktop, App Store

- Built deployed application at agentic-signer.com with web, CLI, desktop, Apple App Store, Google Play, and Solana dApp Store releases, reaching 1000+ users in under 1 month with 35 reviews and a 4.2-star rating.
- Implemented shared WalletBackend architecture powering the chat/app flow, MCP tools, Vercel AI tools, Solana Agent Kit adapter, browser demo, CLI, and desktop shell.
- Added tools for address lookup, message signing, transaction signing, sign-and-send, approval polling, and transaction simulation.

Cross-Engine Mobile Wallet Adapter SDKs

Unreal, Cocos, Godot, Unity

- Built Unreal Engine 5 Solana MWA plugin using Kotlin clientlib, C++ JNI bridge, Blueprint UFUNCTION surface, auth caching, SIWS, signing, and sign-and-send flows.
- Built first Cocos Creator Solana MWA SDK from scratch with TypeScript API, native Android bridge, ECDH/AES-GCM wallet association, auth caching, and Token Duel demo game.
- Completed Godot and Unity MWA work with multi-wallet examples, Seeker hardware verification, reconnect fixes, SIWS/auth token support, and merged upstream PRs.

iOS Wallet Adapter

Swift, CryptoKit

- Built iOS-native Solana wallet adapter package for Phantom, Solflare, and Backpack deeplink signing with encrypted URL/callback flows.
- Implemented X25519 ephemeral keys, NaCl box encryption, Base58 encoding, callback decoding, Keychain-backed state, wallet picker UI, and SIWS-style semantics.

TECHNICAL SKILLS

- Languages:** TypeScript, JavaScript, Node.js, Swift, C#, C++, GDScript, Kotlin, SQL, Python
- Frontend:** React, Vite, Zustand, Tailwind, Radix UI, Capacitor, SwiftUI
- Backend:** Express, PostgreSQL, Prisma, Redis, WebSockets, SSE, REST APIs, auth systems
- Wallet and Transaction Systems:** web3.js, Mobile Wallet Adapter, Wallet Standard, Seed Vault, Jupiter, Anchor, SPL tokens, transaction signing
- Platforms:** Android, iOS, Unity, Unreal Engine, Godot, Cocos Creator
- Infra:** Render, Helius, Chainstack, Birdeye, CI, observability, logging, rate limits

LAUNCH METRICS

800+ SolPulse users	4.3 / 26 SolPulse rating/reviews
1000+ Agentic users	4.2 / 35 Agentic rating/reviews
2 dApp Store apps	4+ Merged upstream PRs

OPEN-SOURCE PROOF

- GitHub portfolio: github.com/mstevens843
- Godot Solana SDK merged PRs: #449, #453, #454, plus related MWA SDK contributions.
- Solana Unity SDK merged PR: #275, WebGL wallet auto-select UX improvement.
- Public repos: TxShield, Unreal MWA, Cocos MWA, Agent Wallet Adapter, Capacitor MWA, iOS Wallet Adapter.

EDUCATION

San Francisco State University

B.S., Business Information Systems, 2018

Springboard

Software Engineering Certificate, 2025

Full-stack curriculum covering JavaScript, React, Node.js, Express, PostgreSQL, REST APIs, auth, and testing.

FOCUS AREAS

Mobile Infrastructure	Wallet SDKs	Trading Infra
AI Agent Signing	Game Engine Plugins	
Developer Tools		

Best-fit roles: full-stack product engineering, backend/API systems, SDK engineering, developer tooling, mobile apps, real-time infrastructure, agent workflows, and user-facing product engineering.
